If there's an existing single zone timer or wireless receiver, you should replace it with the Hive receiver. Hive receivers are backplate compatible with a number of common boiler controls that may already be fitted in the home. If the existing controller doesn't have a compatible backplate, remove it

Hive Active Heating - Plumbase
Q: Will I be able to replace two worn out ACL Lifestyle LP711 timers by plugging into the backplate on the existing timers which have been in place for about 15 years controlling the heating in a Methodist church. Because of the way the system works they tend to get adjusted on a weekly basis and the buttons are sticking. In addition the on board battery is no longer holding the program when ...
