0 Policy Manual Index - Google Docs

Google expects the standard sitemap protocol in all formats. Google does not currently consume the <priority> attribute in sitemaps. All formats limit a single sitemap to 50MB (uncompressed) and 50,000 URLs. If you have a larger file or more URLs, you will have to break your list into multiple sitemaps. You can optionally create a sitemap index file (a file that points to a list of sitemaps) and submit that single index file to Google. You can submit multiple sitemaps and/or sitemap index ...
