### The Castle Walls Of Death

The Castle itself was mysteriously gutted by fire in August 1895. According to a newspaper clipping from The New York Times, two men were seen entering the back of the building between 8 and 9 p.m. About a half an hour later, they were seen exiting the building, and rapidly running away. Following several explosions, the Castle went up in flames.

### The Castle of the Living Dead (1964) - IMDb

Not all people buried in castles died in violent clashes. It is believed that the 12 skeletons discovered at Kalmar Castle in Sweden were probably victims of infection or plague. During repairs of the castle walls in March 2015, archaeologists were allowed to search the area. It was during this inspection that these skeletons were found.
